Objective

A current computer engineering student at UBC, interested in **FPGA, embedded systems, and computer architecture**.

Seeking an intern position in the field of computer engineering.

Education

2021 Sept - 2025 Aug (Expected) **Computer Engineering**, Bachelor of Applied Science
University of British Columbia, BC, Canada
CGPA: 4.0/4.33

Skills

- **Programming:** SystemVerilog, C, C++, Python, Java, MATLAB, Assembly, LaTeX
- **Tools:** Digital Design, FPGA, computer architecture, basic ML, Software construction, Git, Linux, Microsoft Office

Projects

- **Supervised learning on audio file, UBC** *Nov 2023 - Dec 2023*
  - Apply FFT on audio file
  - Dimensionality reduction on audio files using PCA
  - Classification performance comparison between SVM and neural network
- **Communication bike lock, UBC** *Nov 2022 - Apr 2023*
  - Distance communication through antenna
  - Automatic warning sending to communication device
  - Automatic alarm sounding

Work Experience

- Lube Technician, **Super Lube** *Jan 2021 - Dec 2021*
- Apprentice auto mechanic, **Abby's Auto** *Sept 2019 - Dec 2020*

AWARDS

Dean's Honour List *2021 - 2023*
